

# Reference List of all relevant peer-reviewed publications from the open literature that were submitted for the Renewal of Approval (AIR2) of Glyphosate in 2012 and during EU peer-review

## Toxicological and Toxicokinetic Data

The following table lists the relevant publications from the open literature that were selected for inclusion in the renewal dossier as per Article 8.5 of Regulation (EC) 1107/2009.

The publications were legally obtained by Monsanto from the public literature respecting in full all copyrights and are included in Document K.

The Category is defined as per ‘Methodology paper’ (Carr K.H. and Bleke M.S., 2012) and is listed in the Category column. (Some publications are included in more than one dossier section and may have been assigned a different category for each section, in which case both are listed by section number.)

The Evaluation/Translation column includes the following information:

- ‘K’ indicates that a Tier II-type summary and a rating according to Klimisch *et al.*, 1997 is included in Document M for the publication
- ‘T’ indicates that an English translation of the publication is provided

### Section 3 - Toxicological and toxicokinetic data

This document is the property of the member companies of the Glyphosate Renewal Group. It may be subject to rights such as intellectual property and copy rights of the owner and third parties. Furthermore, this document may fall under a regulatory data protection regime. Consequently, any publication, distribution, reproduction and/or publishing and any commercial exploitation and use of this document or its contents without the permission of the owner of this document may therefore be prohibited and violate the rights of its owner.
