

Reference List of Glyphosate Studies submitted for the Renewal of Approval (AIR2) of Glyphosate in 2012 and during EU peer-review

This document provides the list of all glyphosate study reports which have been submitted to the competent authorities in 2012 to prove the safety of glyphosate and request EU authorization.

If you are interested in obtaining and reviewing any of these full study reports which are owned by members of the Glyphosate Renewal Group and which are accessible, you can easily do this via the hyperlinks provided in this reference lists.

Disclaimer: For data privacy and according to the law, all personal information and the testing facilities of vertebrate studies have been blackened in the documents.
